BWM.1/Circ.15
14 April 2010

**INTERNATIONAL CONVENTION FOR THE CONTROL AND MANAGEMENT
OF SHIPS' BALLAST WATER AND SEDIMENTS, 2004**

Ratification by Brazil

The Secretary-General of the International Maritime Organization has the honour to refer to the International Convention for the Control and Management of Ships' Ballast Water and Sediments, 2004, and to state that ratification by the Federative Republic of Brazil was effected by the deposit of an instrument on 14 April 2010.

Article 18 of the Convention provides as follows:

"1. This Convention shall enter into force twelve months after the date on which not less than thirty States, the combined merchant fleets of which constitute not less than thirty-five per cent of the gross tonnage of the world's merchant shipping, have either signed it without reservation as to ratification, acceptance or approval, or have deposited the requisite instrument of ratification, acceptance, approval or accession in accordance with Article 17."

There are, at present, twenty-four Contracting States to the Convention, representing approximately 23.29%* of the gross tonnage of the world's merchant shipping.

* This tonnage percentage is based on world tonnage figures provided by Lloyd's Register/Fairplay, effective as of 31 December 2008.
